

FOR YOUR INFORMATION...

This fact sheet is offered as a courtesy to assist in supporting greater understanding of water-related issues in the Southwest Florida Water Management District.

Year-Round Water Conservation Measures

Lawn Watering Days and Times

- Lawn watering is limited to twice per week under the normal year-round water conservation measures.
- Lawn watering days and times are as follows unless your city or county has a different schedule or stricter hours in effect:
 - Even addresses may water on Thursday and/or Sunday before 10 a.m. or after 4 p.m.
 - Odd addresses may water on Wednesday and/or Saturday before 10 a.m. or after 4 p.m.
 - Locations without a discernable address, such as rights-of-way and other common areas inside a subdivision, may water on Tuesday and/or Friday before 10 a.m. or after 4 p.m.
- Handwatering and microirrigation of plants (other than lawns) can be done on any day and any time.

New Lawns and Plants

- New lawns and plants have a 30-30 establishment period, which allows any-day watering during the first 30 days during the allowable hours.
- During the second 30 days, watering is allowed three days per week: even-numbered addresses may water on Tuesday, Thursday and Sunday; odd-numbered addresses may water Monday, Wednesday and Saturday; and locations without a discernable address may water on Tuesday, Friday and Sunday.

Reclaimed Water

- Reclaimed water remains subject to voluntary watering hours, unless restricted by the local government or utility.

Fountains, Car Washing and Pressure Washing

- There are no restrictions on fountains, car washing and pressure washing. However, the District asks that residents be as efficient as possible, such as using a shutoff nozzle on their hose so water isn't wasted.
